RESPONSE TO FIRE

In case of fire : Use foam, water-spray or fog. Dry chemical, carbon dioxide or sand may be used for small fires only. DO NOT use water in a jet.

FIRST-AID

- 1.If Swallowed : Immediately call a poison centre or doctor. DO NOT induce vomiting.
- 2.If Inhaled : Move the exposed person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention if breathing difficulties persist.
- 3.If on Skin or Hair : Take off immediately all contaminated clothing. Rinse skin with plenty of hand cleaner, mineral oil, or petroleum jelly and water/shower. Wash contaminated clothing before reuse. If irritation occurs : Get medical attention.
- 4.If on Eyes : Flush eyes with water. If material was heated, flush eyes immediately with fresh water for 15 minutes while holding the eyelids open. If no change : Get medical attention

SAFE DISPOSAL OF EMPTY CONTAINER AND EXPIRED CHEMICALS

Do not reuse empty containers for any other purpose. Empty containers and expired products should be treated as hazardous waste and should be disposed of in accordance with hazardous waste regulations and with the consent from the relevant Local Regulatory Authority.

INSTRUCTIONS TO PHYSICIAN

Treat poisoning symptomatically
